--- SEE OFFICE ACTION ON THE FOLLOWING PAGES ---

Please note that the claims submitted December 23, 1998 included two claims numbered 26. The second claim 26 and claim 27 have been renumbered as claims 27-28 by Rule 126 amendment.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- 5 I. Claims²⁷₂₈ 20-24 and 26-28 drawn to nucleic acids, tranformed plants and a method of producing a transformed plant having altered levels of linolenic acid, classified in class 800, subclass 298, for example.
- II. Claim 25 drawn to oil, classified in class 426, subclass 601, for example.

10 The inventions are distinct, each from the other because:

The inventions of Groups I-II are distinct products that are chemically and structurally distinct, wherein one is not required by the other. The nucleic acids and plants of Group I can be used for other purposes than the production of oil, such as the nucleic acids may be used as hybridization probes and the plants may be used for seed production, for example. And the oil of Group II can be made by an alternate method, such as by chemical synthesis, for example.

15 Thus the inventions of Groups I-II are each capable of being separately made, independently used and the patentability of one would not render the other obvious or unpatentable.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, their recognized divergent

20 subject matter, and the requirement for different areas of search, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elizabeth F. McElwain whose telephone number is (703) 308-1794. The examiner can normally be reached on Tuesday through Friday from 7:30 AM to 5:00 PM. The examiner can also be reached on alternate Mondays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lynette Smith, can be reached at (703) 308-3909. The fax phone number for this Group is (703) 308-4242. The faxing of such papers must conform with the notice published in the Official Gazette, 1096 OG 30 (November 15, 1989).

Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 308-0196.
